

Transceiver

LinkIT QSFP112 400Gbps DR4 500m Cisco

8 x 50Gbps | 1310nm | DDM | MPO/MTP-16

Product number: LI-QSFP112MPO-DR4-CI

Product Description

This product delivers a data rate of up to 53.125 Gbps per channel through PAM4 modulation and supports the 400GAUI-8 electrical interface. It features a 1310nm laser and PIN receiver, enclosed in a QSFP-DD MSA package with an MPO connector. The device includes a Digital Diagnostics Monitoring (DDM) function and has a maximum power consumption of 12W, operating on a single +3.3V power supply. It enables transmission over distances of up to 500 meters on single-mode fiber (SMF) and is compliant with ROHS2.0 standards, following the IEEE 802.3bs and QSFP-DD MSA hardware specifications.

Main Specifications

Brand	LinkIT
Wave length (nm)	1310
Distance	500m

Extended Specifications

Transmission speed	40Gbps
Fibre type	SMF
Standards	802.3bs & QSFP-DD MSA HW, QSFP-DD CMIS standard
Temperature	0°C to +70 °C
EAN	7072262017600
Certifications	RoHS
