LinkIT Field Connector Cat.6A, UTP

For Solid Wire AWG 23-26 | 50µ gold wires

Product number: LIFC-6A-UO2326

Product Description

The Linkit Field Connector, Cat.6A, UTP, is an RJ45 plug designed for easy on-site assembly, requiring no special tools. It is built with user convenience in mind and only requires a common wire cutter for installation. The plug is made of durable plastic and is compatible with cables featuring solid cores in the 23 - 26 AWG range. It supports an outer wire diameter of 6.0 mm to 7.5 mm and includes an assembly adapter for inner conductors with a diameter from 1.0 mm to 1.5 mm. To ensure reliable connectivity and long-lasting performance, the connectors are equipped with 50µ gold plating. This makes it an ideal choice for high-quality network installations where durability and performance are critical.

Main Specifications

Brand	LinkIT
Color	Black
Cable shielding	U/UTP - unshielded/unshielded twisted pairs
Material	Plastic

Extended Specifications

AWG wire size	23-26
Voltage	125V AC
Certifications	CE, RoHS
