

RJ45 Boot

LinkIT RJ45 Clear Strain relief boot

50 pcs

Product number: LI-RJ45UTP-B-775

Product Description

The LinkIT RJ45 Strain Relief Clear Boot is designed to protect and secure Ethernet cables, offering a robust solution for networking applications. It fits cables with an outer diameter (OD) ranging from 7.0mm to 7.5mm and is compatible with wire gauges from AWG23 to AWG26. The strain relief boot helps prevent cable stress, ensuring a secure connection and extending the cable's longevity by reducing wear and tear at the connection point.

This product is ideal for use in various environments, including commercial and residential networking setups. The clear boot provides a discreet, professional finish while offering flexibility and durability. It is packaged with 50 individual boots, making it an economical choice for bulk use, and is delivered in a convenient jar for easy storage and access.
